CALVIN II

Antonio Calvin is a 16-year-old student at EES Success Academy. He is an intelligent and artistic young man that has many talents and knows he was created with a purpose. He prays that within this book, readers can find a reason to forgive their debtors. He encourages them to read Ecclesiastes 3:1 - 8.

"How did it get to this?" he wondered. "Where did I turn to arrive here?" He felt unredeemable. With his being a killer for 14 years, it seems rational. He knew it was rational, as well. He knew he should have been in jail for the past 14 years of his life; let alone his entire life. He knew he should be *dead*. Police would always be on the prowl, and he knew that someday, he would slip up. But he never tried to stop, because he felt that he couldn't do it. And he was right. He couldn't—without God.
