## Book Bio

Raising Kids in today's climate or any climate can be tough. In helping my own grandson navigate his way with recognizing his own behaviors and achieving The Fruit of The Spirit is what birthed the teachings in this book series. They were created to help children apply God's word and expectations to their daily lives in a real and relatable way.

I pray they are a guide and inspiration to your family as well. Watching the little light ignite in my grandson when he reads one of the books that applies to a "Right Now" situation has been so fulfilling. I give God all of the Glory and I am so thankful that he placed this in my hands and heart to share with the world.
