

THE RELEASE DAY SAGA

Humans thought they were safe underground where the invading Arthropods couldn't reach them. After centuries of occupation, the antiquated subterranean cities have deteriorated and they have exhausted their supplies. Making matters worse, the hostile invaders have destroyed one of the ten remaining cities. Now Huck, Ariadne, and Hemant are in a race to destroy the Arthropod Hive before the "inverts" completely annihilate humanity. But before the candidates can begin, they must survive their corrupt government's population control scheme—a highly-fatal, barbaric event known as **RELEASE DAY**.

EARTH'S
SURFACE IS
NO LONGER
OURS.

RYAN MATTHEWS

Ryan Matthews is a young adult author and ESOL teacher. His debut series, the *Release Day Saga*, is a young-adult dystopian series. Ryan also enjoys taking nature photos, studying foreign languages, and playing the French horn. He holds degrees in both graphic design and education. He lives in Tennessee with his wife, daughters, and the family pets.
