

Children's Reading Log

Color your way through the summer!

Each section represents a week's worth of reading. Read at least 100 minutes a week, which is only around 20 minutes a day.

Color in the whole section when you've read for the week! Each completed section is an entry into the Grand Prize.

Turn in your complete map at the end of the summer for your chance to win a grand prize!

Prizes are available for each week you read, while supplies last
