## Book Bio

**Faith Files** is a heartfelt compilation of testimonies shared by members of Mt. Vernon Baptist Church—ordinary people who have witnessed the extraordinary power of God in their lives. The inspiration for this work was born from a stirring sermon of the same title, preached by Senior Pastor Melvin Watkins. In that message, he reminded believers that when life becomes overwhelming and challenges seem insurmountable, there is strength in looking back over all that God has already brought you through. *When you feel discouraged, revisit your Faith Files.*

Within its pages are stories of healing, restoration, protection, guidance, and unwavering grace. Each testimony stands as a living record of God's faithfulness, offering readers a beacon of hope no matter their circumstance. Whether someone is navigating grief, uncertainty, illness, or transition, these shared experiences testify that God is still present, still able, and still working miracles in the lives of His people.
